

Radical. Simple. Nice.

BullGuard is internet security for real people living their lives online. We make sure you don't get in trouble - you just make sure you have fun out there.

BullGuard™

Internet Security

Radical Technology

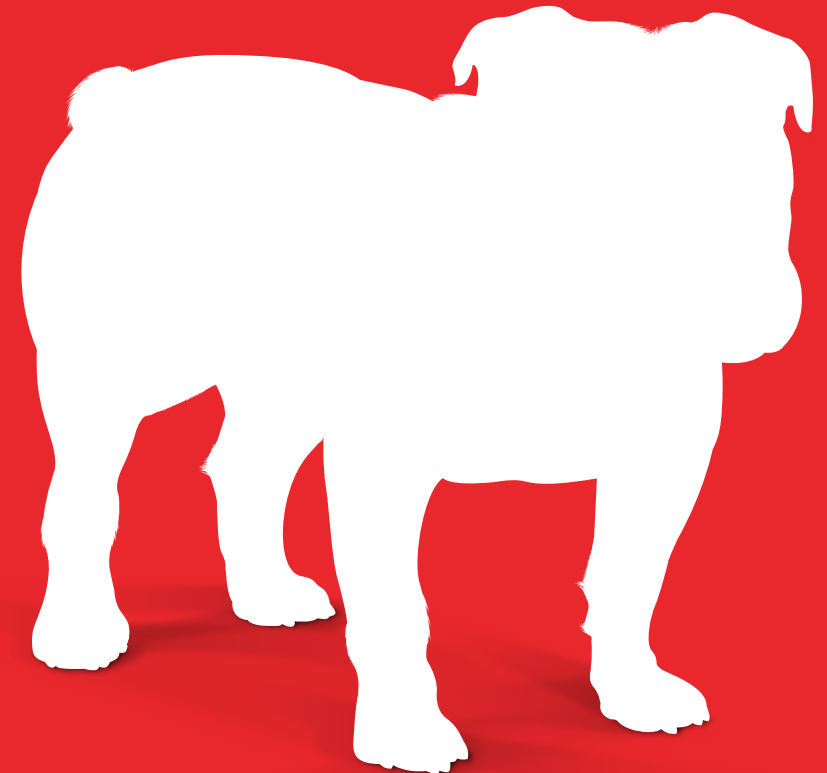

Our malware detection is miles ahead of the standard security tools available. We spot the crimes before they're committed, and steer you clear of any dubious digital neighbourhoods. We give you the power to enjoy and explore.

Simple to use

If you think it's complicated, you're not going to use it. Especially when "it" is technology. BullGuard is Scandinavian design: Simple, logical, functional and really good looking. We made it for you.

Nice to talk to

Our support team are a phenomenal bunch of dedicated, plain-speaking experts. The service we offer is unparalleled in the industry. Ask anyone. And ask us about anything. We're who you go to if you think you're in trouble.

The liberty to enjoy and explore life online

BullGuard Internet Security is a complete internet security solution which protects you and your computer from online threats like identity theft, credit card fraud, hackers, spam, viruses and spyware.

Simple to use

The user interface is simple and logical. All the technical stuff is tucked away beneath an incredibly simple user interface and all functionality is just one click from the main BullGuard start screen.

Engage without worry

BullGuard lets you e-mail, shop, bank with confidence, and with 5 GB online backup your photos and music are completely safe, regardless of what might happen to your computer.

Safe fun

BullGuard protects you without spoiling your fun: You can game without performance loss and then bank on the same PC in complete safety. Since a 3 PC licence comes as standard this is the perfect, flexible solution for any household.

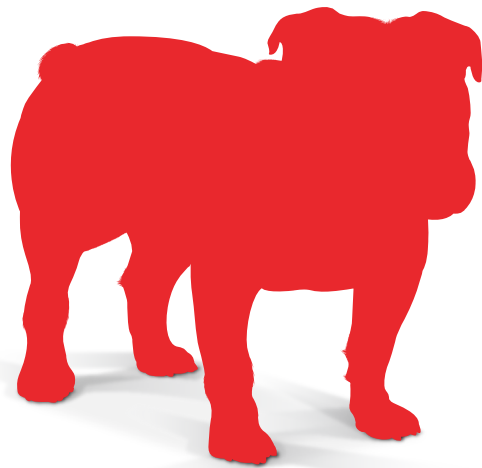

Radical Technology

Radical behavioural technology combined with meticulous yet unobtrusive monitoring features positions BullGuard as the end

user champion in the fight for digital liberation.

Great Support

With an unrelenting focus on skilled and friendly support and differentiated communication to suit the users need for information and interaction, Bullguard continues to dedicate heart and soul to provide advanced technology to everyday users.
